

Dear member,

Invitation to join Dietitians Australia for a stronger 2023

The year of 2022 has been better than ever for Dietitians Australia – strengthening our powerful voice is at the forefront of everything we continue to do.

We advanced our presence in the media with our election strategy and committed work in advocacy and policy. We launched a range of quality education products including our Evergreen portfolio of courses, and our brand-new contemporary website has been an enormous success. We also came together in Adelaide for our first in person conference in several years.

Looking to the future, the Board of Directors launched the organisation's strategic plan for the next 3 years which maps out an exciting and bold roadmap for the Dietetic and Nutrition Profession.

We will continue to pave the way with our new ambitious government relations plan. And a refreshed committee structure brings exciting developments in member engagement and the value of being part of Dietitians Australia.

Our growing membership community thrives with over 8500 members. This strong voice is being heard so I look forward to your membership renewal and being part of our stronger 2023!
